JOSIAH TURNER, Jr., EDITOR.

From the Petersburg Index.

A REIGN OF TERROR.

North Carolina seems to be rapidly driving towards civil war. Citizens of Alamance county have been arrested without warrant, and confined without the charges against them being made known, and the writ of habeas corpus is disregarded by Commander Kirk, of the State militia, who arrested them. What aim has Governor Holden in view? What does he hope to gain by anarchizing the State, in which he hope to hold the highest office? Is it possible that these outrages are merely the playful gambols of a modernized edition of "Kirk's Lambs?"—*New York Herald of Tuesday.*

Additional news has been received that Hon. John Kerr, Hon. S. P. Hill, Sheriff Griffith and other prominent Conservatives of Caswell county, were arrested at Yanceyville yesterday by Kirk's militia. The Congressional candidates in that district were speaking, when the Court house was surrounded by soldiers.—*Associated Press Dispatch, 19th.*

The wife of Hon. Josiah Turner, editor of this paper, was twice fired upon by an assassin last night. Mrs. Turner was at the window of her dining room, and the muzzle of the piece was so close that the powder burned her face.—*Raleigh Sentinel.*

* * * * *

These are some of the pregnant details of the system of electioneering which has been adopted in North Carolina by Holden and his faction. In receiving them day after day we feel with the New York *Herald* that North Carolina is rapidly drifting towards anarchy, civil war—destruction.

While bands of lawless desperadoes, led by such cut-throats as Kirk, are roaming through a country heretofore quiet and peaceful; while their deeds of violence are the comment of every journal, and they need only the request of a Radical candidate to cause them to arrest and imprison inoffensive citizens; the Conservative party of the State is exerting its utmost influence to prevent outbreak, to repress retaliatory measuris, to prolong the course of moderance which has marked the bearing of the North Carolinians.

But how long can this state of things exist without provoking a return of blow so frequently and promiscuously struck? The people love the law; but can they always put up with the oppression of lawbreakers, and see their firesides invaded, have their rights of person and property violated, have their women threatened with violent death, and give no single effort at self-protection?

Will they not ere long argue that those whom the law fails to defend are under no obligation to the law, and so arguing will they not inevitably take upon themselves guardianship of these sacred rights which are dearer after all, than peace, or plenty, political franchise, or assured relation with the Federal government?

It must be so! And we reiterate the *Herald's* enquiry, "What does Governor Holden aim at," if not at civil war? That must be his aim, and it will surely be attained unless some power is found to check his usurpations and acts of despotic violence. And when it comes, of course the poor long sufferers will be guilty of rebellion by a hundred hard names, and Kirk will ride through them with rough dragoons sabring and hanging like bloody Clavershouse.

Is there no remedy for these evils imposed by a Governor upon his people, except that which is the greatest of all evils—domestic strife? We see none except the courts defend the outraged prisoners, and even then the protection will be technical and can only reach individual cases.

We trust that help will come, that the majesty of law will awe the offenders, or that Holden may shrink before the storm which his minions have called into existence. If not, we know not to what course our people should be advised. Either line of action is fraught with terrible consequences. To submit, and thus permit a perpetuation of the radical rule which is responsible for all these crimes, would seem suicidal. To provoke worse iniquities by resistance would give rise to terrible scenes. But there are calamities which cannot be endured. There are wrongs which justify the shedding of blood. Holden is treading upon the crust of an earthquake, and only himself will be responsible if the catastrophe should follow. Let him beware lest he overstep the bounds which thinly divide his power from his gallows.

INCOME OF THE KING OF PRUSSIA.—A Prussian writer has estimated that if King William of Prussia received as much in proportion to the land he rules as the minor German princes of Thuringen he would obtain somewhere in the neighborhood of thirty million dollars in gold yearly, whereas he receives now about two and a half millions. For instance the Grand Duke of Saxe Weimar, whose land includes an area of 1,402 square miles, draws, besides revenues from the crown estates, retained for his own use, a civil list of $200,000. The Duke of Saxe Coburg Gotha, whose principality includes 759 square miles, has a civil list of $70,000, and besides this, one half the surplus from the crown lands, which amounts to $50,000 yearly. The Grand Duke of Saxe Meiningen, with 956 square miles of land, receives a fixed civil list of $72,300, and besides this the half of the surplus from the crown domain of about $21,000. The Duke of Saxe Altenburg, with a land of 510 square miles, has a civil list of $110,000. The principality of Schwarzburg-Sonderhausen, 328 square miles, brings the Prince a domain rent of $110,000. The Duke of Anhalt draws a civil list of $56,000, and a domain rent of $120,000. A very simple calculation will suffice to show that these revenues are large in proportion to the land governed, though all must admit that these incomes are small enough to maintain a court in good style. We question whether some of them would not be glad to make such a sale of land and people as the ex Duke of Nassau did, who appears to enjoy himself upon the fifteen million florins which he received from Prussia, after 1866, for 1,751 square miles of territory and not quite half a million of subjects.

DURATION OF LATE EUROPEAN WARS.—In the Crimean war of 1853-6 Turkey declared war against Russia October 5, 1853 Russia declared war against Turkey November 1. France and England declared war against Russia March 27-28, 1854. The battle of Alma was fought September 25; battle of Inkerman, November 5. Sardinia joined the allies January 26, 1855. The Malakoff was taken by the French September 8. Sweden joined the allies November 21, and hostilities were suspended February 29, 1856. The war between the Western powers and Russia lasted two years, lacking one month.

The Italian war of 1859 was begun by the rejection of the Austrian ultimatum by Sardinia, April 26. The Austrians crossed the Ticino April 27. The French entered Genoa May 3.—The battle of Montebello was fought May 20; battle of Magenta May 30 31, and the battle of Solferino June 24. The peace of Villa Franca was signed July 11. Hostilities were active but ten weeks.

The Schleswig-Holstein war of 1864 began by the invasion of Schleswig by the Prussians February 1. The Prussians took Duppel April 18, and Alsen July 9. Treaty of peace between Denmark and Germany signed at Vienna October 30 Actual hostilities covered a space of twenty two weeks.

The German-Italian war of 1866 was begun by Prussia, July 14 Italy declared war against Austria June 20. The battle of Custoza was fought June 24, and the battle of Sadowa July 3. The treaty of peace between Prussia and Austria was signed at Prague, August 23, and between Austria and Italy at Vienna, October 4. Actual hostilities between the belligerents lasted only five weeks.

WALTHAM

WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

More than 450 000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skilful artisans in our works, and long use on the part of the public demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mention d improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks.

American Watch Co.,	Waltham, Mass.
Ann Watch Co.	Waltham, Mass.
American Watch Co.,	
Crescent St.	Waltham, Mass
Appleton, Tracy & Co.,	Waltham, Mass.

BAILED.

While the counsel for Kirk's prisoners were arguing the case, one of the prisoners, Boyd, appeared in the Governor's room, wrote his own bond, giving bail in the sum of $50,000 to appear before Holden's friend Kirk, upon five days notice being given.—Governor Bragg in his argument announced this fact to the Chief Justice, who was crestfallen and threw his eyes upon the floor.

What a mockery of Justice and law! Bail to Kirk! Oh, Pearson! Pearson! why don't you let the law, instead of Kirk, take tail!

As soon as Mr. Boyd's campaign is over, we hope he will surrender to Kirk and go back to prison. We hope no other prisoner will give bail to Kirk or Holden, until a warrant is sued out and proof made against him sufficient to bind him over.—We want our old friend, Henderson Scott, with the faith of a true Presbyterian, to remain in prison until discharged by law. Give no bail until required by a magistrate and the law. If those old Presbyters, of blessed memory, Dr. Mitchel, Dr. Phillips and Dr. Wilson, were here, you would have their prayers not to give bail, and if Judge Pearson, as the law demands that he should do, will order the arrest of Kirk for contempt, these old fathers of the Church would add a musket to their prayers and march to your relief. There is one churchman from whom you need look for no prayers, and that is Samuel Phillips. His failure to denounce your arrest is an approval of it, his prayers therefore would be hypocritical, or on the other side.

When you are relieved from prison, as you will be, and your false brother Phillips comes to tell you how sorry he was for your imprisonment, beat him over the head with your stick. We know you are not able to stand without your stick, but take a seat and use your stick upon him.

We know you were not allowed to talk to your friends. If Holden, the devil incarnate, will order Kirk to allow you to receive it, your friends in the Hawfields will telegraph to Danville to start a load of ice with other things necessary for the comfort of yourself and friends. We know how sorely you are afflicted, but we say in the name of God, Liberty and the Presbyterian Church, give no bail to Kirk or Holden. If Kirk will take a substitute for you, we are authorized to say that your pastor, Rev. Anderson G. Hughes, will take your place in prison, and every male member of his congregation will go with him. We believe there are no two Presbyterians of your acquaintance in the State who would not do so, except Samuel Phillips and Wm. L. Scott.

LAW AND ORDER.

The history of the country is full of instruction to Gov. Holden and Judge Pearson, as to how the military should act in the present emergency, if indeed there had been any necessity for calling them out at all.

In 1793, there was an insurrection in Pennsylvania known as the "Whisky insurrection." The militia were not called out until Judge Peters, the U. S. Judge for the District, certified that he had issued warrants which the Marshal was unable to execute, without military aid. An act of Congress at that time required such certificate to be made before calling out the militia. The Marshal wrote, declaring that he needed military aid, and the Secretary of War issued an order in which it was stated that "one object of the expedition is to assist the Marshal of the District to make prisoners," and execute the civil law.

Gov. Bowdoin made the following order to Major General Lincoln: "Consider your self under all your military offensive operations, as under the directions of the civil officer, saving where an armed force shall oppose your marching to execute these orders."

In substantial accordance with these orders were the views of the great Washington, then President of the United States. In issuing orders, he constantly enjoined a subordination of the military to the civil authorities. He accompanied the troops in person to see that the laws were respected. Finley, in his history of this insurrection and rebellion, says, "The President assured us, that the army should not consider themselves as judges or executioners of the laws, but as employed to support the proper authorities in the execution of them."

All the arrests made in the Pennsylvania insurrection were under civil warrants aided by the military. Let Holden and Kirk read this and act accordingly. If they do not, the Judiciary will force them. With an honest, firm Judiciary, the majesty of the law and the Constitution is stronger than Kirk and Holden's negro militia.

BROCK HOLDEN, ESQ

This gentleman, brother to the Governor, and a citizen of Caswell county, is now in this city for the purpose of procuring writs of *habeas corpus* for Judge Kerr and some nineteen citizens of Caswell, who are shut up, during this hot weather, in Kirk's military prison.

Mr. Holden says that among the prisoners arrested in Caswell, are many grey-headed christian gentlemen, noted for their integrity and moral virtues.

Mr. Brock Holden is brother-in-law of Mr. Frank Wiley, who was so brutally treated by Kirk's men. He says, and he got the information from negroes who witnessed the fact, that Mr. Wiley was in his field when Kirk's men called him to the fence. They told him they came to arrest him. He being an old Sheriff, and knowing the law, asked for their authority. They replied that they had no written authority. He then told them he refused to be arrested without a warrant. One of Kirk's men then asked him if he was armed, and on his replying that he had no arms except his pocket knife, he was immediately felled to the ground with a fence rail.

Mr. Wiley, was then, as has already been stated, put upon his horse bareback, his arms tied behind him, and legs tied under the horse's belly, and in this condition he was carried ten miles to Yanceyville. His head, feet and face were greatly swollen; his feet so much so that, next day, he could not get on his socks.

Mr. Holden says that if the Governor will order a Court of Oyer and Terminer to try Kirk's prisoners, he will take the Judge in his buggy over to Caswell, and he is sure that, if they are guilty of the murder of Stephens, they can be fairly tried, convicted and punished.

This is a fair proposition, coming from the Governor's brother.

Let the Governor order the Court and try the prisoners. But this would not do for the Governor, there is not blood enough in it, and too much of Constitution, law, justice and order—the very last things the Governor wants at present.

CONVICTED OF ROTATING.

"Rotating Dick" made a long speech day before yesterday, before His Honor, Chief Justice Pearson, to convince him that it was no contempt on the part of Kirk to refuse to obey his order, and to send him word that his writs of *habeas corpus* had "played out."

Richard the Rotator charged that B. F. Moore, Esq., Judge Battle, Judge Merrimon, Gov. Bragg and Gov. Graham, were responsible for the Holden insurrection, which is in embryo, because they could have put down the Ku Klux. The whole Court, except Judges Pearson and Reade, hung their heads, on hearing what Frank Caldwell would call "the little didapper" charging upon the old compeers and friends of his venerable father, "murder, arson, and all the outrages known in the catalogue of crime."

At these utterances of Richard upon the gray haired great men of the State, scorn, contempt and indignation sat upon the brow of every member of the Bar, and each looked what Holden once said when the Rotator had betrayed him, "O, Richard! Richard!"

Richard charged that the law could not be executed against the Ku Klux; in other words, he spoke Holden's proclamation with additions and emendations.

Gov. Bragg's reply to Richard was wilting and withering. He said a change had come over the mind of Richard. That the only Ku Klux case tried in this circuit was in this city, and Richard was the Attorney for the Ku Klux; they were acquitted and, he thought justly and properly. But their Attorney now argues that their acquittal was improper. Herein Richard was convicted of Ku Kluxing, and of aiding and abetting Ku Klux.

No wonder that our "cussing beloved," should turn up his eyes, spread forth his palms, and in anguish of soul and bitterness of spirit, cry out, "O, Richard! Richard!"

DAVIDSON COUNTY.

We were in error, a day or two ago, in stating that the Conservatives of Davidson county had held a Convention and nominated candidates. We saw in some paper that there were candidates running in opposition to the regular Radical nominees, and took it for granted they were put forth by the Conservatives. But the Conservatives have had no Convention in that county, and the candidates running in opposition to the Radicals are independent—running on their "own hook."

We understand these independent candidates, whatever may have been their former party affiliation, are all opposed to the extravagant and burdensome administration, and particularly pledged against the present unlawful and unnecessary military displays of the Governor. That is sufficient to entitle them to the support of all good men, at the present crisis, and we hope they will be elected.

THE GOOD MANAGEMENT OF THE N. C. RAILROAD.

We cannot be pursuaded that the mere fact of a cash dividend having been declared and paid is infallible proof, of the good management of the Road, irrespective of the *condition* it was in when received by Wm. A. Smith, and the condition it is now in, when the dividend is declared.

If the *mere ipse dixit* of officials or partizans, is to be taken, unsupported by facts, then the controversy must end, for we shall not undertake to compete with Radicals in making unfounded assertions.

We would call attention to the report of the Secretary of the Company dated 31st May, 1868, page 45, showing there was paid for new iron, Railroad chains and spikes $113,523, during the fiscal year ending that day; and there was received for old iron that year the sum of $32,362, and that the remaining sum of $80,960 was paid in *cash* for iron during our administration.

Blowing Billy has only paid $25,963 in *cash* for new iron, chains and spikes, during the *two years* he has been in charge, as any one may see by referring to the reports of the Secretary for the years 1869 '70, to wit: page 37 for 1869 shows the new iron, chains and spikes, purchased amounted to $72,655, and page 36 the amount received for old iron sold that year was $58,338, making his cash payment for 1869 only $14,317.

Again, the Secretary's report for the year ending 31st May, 1870, page 15, shows new iron, &c., purchased, to be $53,450, and on page 14, $41,814, amount received for old iron, sold during the year, making the *cash payment* $11,636 for that year. Was *the cash* payment of $80,960, by James Anderson, Superindendent, during our administration, *above the average amount necessary to keep up the Road?* If not, Smith should have paid $161,920 *in cash*, but having paid $25,948 for two years *he is behind on iron* $135,967 and on a good many other things which we have not time or space to enumerate.

Hence the dividend.

It has been the uniform estimate for the old iron taken up from the track to pay for *one half* of the new iron laid down.

If we estimate the cost of iron, chains and spikes at $10,000 per mile, it would require the iron to last a fraction over *eighty-nine years* to keep the Road up with expenditures for iron, chains and spikes, averaging no more than for the two years that Smith has been President, ending 31st May, 1870.

But as fifteen years is regarded as a fair average for the last of iron on this Road, very little over *one sixth* of the quantity of iron, necessary, has been purchased *out of the earnings of the Road.*

We cannot agree with their *able* Superintendent, Albert Johnson, that the interest collected, the rent of buildings, the *sale* of old iron, and *the sale of other property*, ARE EARNINGS of the *Road.*

However, if our ignorance on Railroad affairs is such as to prove we are in error and the Superintendent right, then a sale of all the real estate, and a few miles of the Road, upon a pinch, all set down as earnings, and the next dividend may be ten per cent.

The Richmond and Danville Road would give a pretty fair price for the ninety-three miles from Charlotte to Greensboro'.

Blow your horn Billy, make a few more sales and declare another dividend.

That no one may conclude we are joking, we refer them to page 4 of the Superintendent's printed report, dated 31st May, 1870, where will be found $58,197 entered as *earnings* from minor sources.

And on page 14 of the secretary's report of the same date, the items of this $58,187 from minor sources, are given and will be found to be as stated above. From rents, sale of iron, from sale of other property, from interest, &c. Smith would have us believe he can take up the old iron and have it re-rolled and lay down the same number of miles by adding a few dollars for freight and chairs. So he can, by making a light rail that will be worn out in a few years, but in no other way can it be done as any one with common sense must see.

We could give other illustrations from these printed reports as to a deficiency of *materials* in other departments, but will refer Stockholders to the expenses for *salaries and labor* for the fiscal year ending 31st of May, 1868, and 31st of May, 1869, that they may see what Billy has to boast of in respect to his economy or retrenchment and reform in this department.

On page 25 of printed proceedings of the annual meeting held July 1869, will be found in the report of Finance Committee a table which we copy below marked "A."

"A."

Here is the abstract from report:

"The disbursements for labor for the two last fiscal years as appears from the pay rolls for each month in the year were as follows:

For the year ending 31 May 1868 and 1867.

	June,	$16,778.25
	July,	17,130.57
	August, (7)	22,223.12
	September,	14,519.86
	October,	14 990 80

	February,	17,504.33
	March,	9,935.33
	April,	9,690.59
	May,	17,894 55
		$190,852 59

For the year ending 31 May 1869 and 1868.

	June,	$9,761.65
	July,	10,115.37
	August, (8)	17,009.32
	September,	10,788.17
	October,	11,457.42
	November,	18,791 28
	December,	11,011.93
1869	January,	11,086 86
	February,	18 609.36
	March,	11,112.03
	April,	11,261 64
	May,	19,801.19
		$160,306.26

In reviewing this table it will be necessary to remember that the fiscal year begins on the first day of June, the annual meetings are held on the 2nd Thursday in July, when the changes in administrations take place, and that the new President seldom enters upon the duties of his office before the 20th of July.

It will be seen at once from this that a President is not responsible for the pay rolls of June and July in his fiscal year, and as the salaries of officers are paid quarterly, to wit on the last day in August, November, February and May, he is hardly chargable with the August pay roll of his fiscal year.

This table shows that $23,223 was the amount of the first payment made, after we entered on our duties as President, on pay rolls in which the salaries of officers were included in August 1867, and that a gradual reduction was made in these quarterly pay ments to officials until in August 1868, they amounted only to $17,000.

In this condition W. A. Smith found them, when he entered on the duties of President. He made no reduction, but a slight increase, until in May, 1869. They amounted to the same of $19,301. So much for the pay of officials.

Take the other pay rolls in that table, for July 1867, the month we entered on the duties of office; the other pay rolls amounted to $17,180. A gradual reduction was made, until June 1869, when they amounted to only $9,761. W. A. Smith entered on his duties as Prereisident in July 1868, when these pay rolls amounted to $10,115. (The fractional salaries of discharged officers belonging to other pay rolls, but included in July, accounts for the slight increase over June.)

A gradual increase will be found after Smith's inauguration until April, 1869, (when) they amounted to $11,261.

So that W. A. Smith has actually paid at the rate of $14,170 more on pay rolls per annum than he would have done had no increase been made during his term.

It is true if each fiscal year be added up separately, one amounts to $190,852, and the other to $160,306; a difference of $30,546, but this would not give a correct showing of the two administrations; we would be charged with $56,131 contracted by our predecessor Webb, and Smith would be charged $26,884, which we contracted and thereby would give him credit for $19,245 of *reduction* in pay rolls, which we caused to be made.

The absurdity of boasting as to *less expense* under Smith, will fully appear upon a careful comparison of the amounts paid by each for salaries and labor while they were in office as shown in this table, made by a committee of five, of whom four were Republicans, and should be regarded as good authority for that party.

A WORD TO FARMERS.

We clip the following from the N. Y. *Herald* as containg hints worthy the consideration of our agricultural readers. It is true, our farmers cannot avail themselves of the state of war lately inaugurated in Europe, at this late season of the year, to increase their grain crops, but they may use the balance of the season in raising such edibles as will help to economize their breadstuffs and thus increase their grain sales.

"There is a prospect of a terrible war in Europe, involving the destruction of millions of dollars' worth of subsistence which, in peace would be saved. At the same time a wasting drought in France has shortened her crops one half and reduced the price of her live stock to almost nothing, owing to the scarcity of forage; and the same drought, more or less disastrous in its effects, has been felt, and still prevails, from the Baltic to the Black Sea. From these facts it is apparent that there will be an extraordinary demand all over Europe for the next twelve months for our surplus breadstuffs and provisions of all descriptions. We have had a splendid wheat harvest, which includes a good harvest of rye, barley and oats. Our Indian corn crop, the most important crop of the United States, is now developing itself, and the general promise is very good. We would say, however, to every farmer concerned, North and South, make and save as much of this crop as possible, for by next winter the product of an acre in corn may be worth more in cash than an acre's yield in cotton. At the same time, in order to guard as far as possible against unscrupulous speculators, the Agricultural Bureau at Washington may render an important service to the country in ascertaining the amount of our products this year in wheat, corn, potatoes, &c., from reliable sources.—All parties concerned, and especially consumers, will know better what to do in the work of harmonizing demand and supply in knowing upon what we have to depend in the way of a surplus of breadstuffs for exportation."

PAIN KILLER
PERRY DAVIS & SON PROVIDENCE, R. I.
1840 1870

This Valuable Family Medicine has been widely and favorably known in our own and foreign countries upwards of

THIRTY YEARS!

It has lost none of its good name by repeated trials, but continues to occupy a prominent position in every family medicine chest.

It is an External and Internal Remedy. For Summer Complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has without doubt, been more successful in curing the various kinds of cholera than any other known remedy, or the most skillful physicians. In India, Africa and China, where this dreadful disease is more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, a *sure remedy*; and while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in unskillful hands. Directions accompany each bottle.
Sold by all Druggists.
Price 25 cts., 50 cts, and $1 per bottle.

devised by its talented and distinguished Actuary CHAS. N. MORGAN, which must make it the leading Company in America, for persons in

MODERATE CIRCUMSTANCES,

and all who appreciate and demand the most UNQUESTIONABLE SECURITY, at rates in most cases, *considerably lower* than those of the leading Mutual Cash Companies.

The Excelsior issues Policies on *all* the plans of *Mutual* or *Stock* Companies, extending to policy holders, all their really desirable advantages. Its policies being *non-forfeiting*, the insured are privilged to *live and travel where they please* in any healthy part of the world, they participate in its profits, are allowed 30 days grace for payment of renewal of premium, a cash surrender value of policy, *and a privilege* which has never been offered by any other Company, that of converting Policies into

ANNUITY BONDS,

after the payment of 5 or more annual premiums.

☞ Hitherto, I have been restricted in the very popular Company which I had the honor to represent to *Stock rates* alone, which most of the *Mutual*, and mixed Companies have adopted. This disadvantage, together with the multiplication of many new Companies, in this State who Excelsior induced me to accept the management of that Company, whose plan combines all the popular features of other Companies, represented in this State, without an exception, and the additional privilege of converting policies, which the holder can not afford to keep up, or wishes to discontinue, because of the death of those for whose benefit the policy was secured, into an *Annuity Bond* which provides an *income in cash through life, or for a series of years as preferred.*

Circulars giving full explanations and any other information, will be cheerfully furnished

The most liberal arrangements, will be made with first class solicitors, to push the Excelsior forward in the Old North State, to that position which her low rates and most ample security entitle her to occupy.

At the annual communication of the Grand Lodge of the I. O. O. F. of N. C. held at Goldsboro', July 19th, 20th and 21st, 1870, the following officers were elected for the ensuing year:

M. W. G. M., Seaton Gales, Raleigh.
R. W. D. D. M. G. G., Elam, Greensboro.
R. W. G. M., W. J. Yopp, Wilmington.
R. W. G. S., J. W. Gulick, Goldsboro.
R. W. G. T., J. H. Baker, Tarboro.

APPOINTED OFFICERS.

R. W. G. W., W. H. Porter, Greensboro.
R. W. G. C., H. B. Byan, Tarboro.
G. W. G. G., F. P. Clark, Wilson.

Personal.—Col. Walter Clark, of Halifax, called on us to-day. He has been in the city attending the stockholders meetings of the R. & G. and the Chatham Railroads. The Colonel represents things as quiet in his section, and that the crops, especially the cotton crops, are quite promising.

Stockholders Meeting.—The Stockholders meeting of the R. & G. Railroad Company was held at their office in this city yesterday. There was an unusually large representation of stock in the meeting, and the President's report showed the condition of the Road to be very satisfactory, a dividend of five *per cent.* having been declared from the earnings of the Road after paying the usual ordinary as well as extraordinary expenses.

The following Board of Directors was elected for the ensuing year: Dr. W. J. Hawkins, George W. Mordecai, (these two unanimously) Walter Clark, J. B. Batchelor, A. M. McPhaiter, S. S. Royster and Col. George Little.

At a subsequent meeting of the Board of Directors, Dr. W. J. Hawkins was re-elected President unanimously.

Chatham Road.—The Stockholders meeting of this Road was held to day.—The same Board of Directors was chosen for this Road that was chosen for the R. & G. Railroad yesterday.

This Road is reported in good condition as far as built, and contracts will be let at once, for completing the gap between Haywood and Jonesborough, which it is expected will be in readiness for cars by winter, thus opening the line to Fayetteville.

More Improvements.—We notice the brick and other materials piled up in Martin street for another new store. It is contracted for by Mr. D. L. Royster for our fellow-citizen, Jno. R. Williams, Esq., and will adjoin the one erected by him last year, now occupied as a wholesale and retail grocery establishment by Messrs. Saunders & Monfo.

The new livery stable commenced a short time since by B. P. Williamson, Esq., on Martin, East of Wilmington street, is drawing to completion, and will soon be ready to be occupied.

We notice, also, two very neat cottage residences being erected on East Hargett street, for G. W. Mordecai, Esq., by Mr. T. H. Briggs.

The splendid new Carriage and Buggy Factory, being built for Mr. N. S. Harp by Messrs. Betts, Vaughn and Allen, is having the floors laid, and will, ere long, receive the finishing touch.

Our neighbor, Maj. Seaton Gales, is having a beautiful and convenient family residence erected, on his lot just west of St. Mary's. Mr. T. H. Briggs is the contractor.

There are several other new buildings going up and others being repaired in various parts of the city, the particulars of which we have not at hand, and will reserve them for another paragraph.

Editor Sentinel: Sir—In Eastern North Carolina we are unmolested, and peace prevails in every quarter and in all circles.—We discuss the political questions of our State without fear or favor. We are anxious to know if it would be safe for us to visit up country with our families as usual, this summer, and claim the same privileges up there, or would there be danger of being arrested and taken away from our families if we express ourselves too freely on the management of our State affairs, or are we *freedmen in the East and slaves in the West?*

Many Citizens of Eastern N. C.

SLY AND SNEAKING.

The Radical party of this State; we mean the leaders and guiding spirits of it, have so long habituated themselves to sly, sneaking operations that it seems impossible for them to come out in the open day and do anything frankly and aboveboard.

Their party was organized in the dark and midnight assemblages of the leagues. Their plans and machinations were concocted, and their orders issued, in these secret, midnight conclaves.

Their legislation was all planned, cut and dried in secret caucus before it was brought before the body publicly; and the name of their members enrolled to vote according to the secret decision.

The Executive has carried on his administration by secret, sneaking agencies. He sold the school lands secretly, without advertising; he employs, sneaking secret detectives to go about as spies among the people; he gets information from lying, unreliable secret agents, negroes and others, behind closed doors.

In short, nothing is done, scarcely, but by sly, secret, mole-like movements; and now that the election is coming on, they can't even print their tickets like honest folks, but have the work done with closed doors, and great mystery.

They are a sly, mysterious, sneaking, underhanded set, that can't do anything in a straight forward, open manner.

REVIEWING THE TROOPS.

Dad walked down to the Baptist Grove where a portion of his negro troops from Newbern were quartered. He went to review them and was heard to say to one of his Surgeons that "we are now to have a second rebellion; let it come on, I am prepared for it."

Dad can't get it up even with the assistance of Kirk, Dr. Arendell and Didapper Dick.

Dad, "let us have peace."

Raleigh, July 22, 1870.

Mr. Editor:—This is a time to keep cool, and it is also a time to speak out. I have waited for others more prominent to call a town meeting to denounce this invasion of Kirk; if the meh will not hold a meeting, I shall propose, as soon as Judge Kerr is liberated, that the ladies hold a meeting in Tucker Hall and invite Judge Kerr to address them. Of course the men would not be allowed to attend the meeting. What say you to it?

TRINITY COLLEGE.

Mr. Editor:—Trinity College is of sufficient importance in North Carolina, to interest most of your readers in a general statement of present condition and future prospects. The College is free from debt except a small sum, and the whole cost of building and furnishing has been paid without any donations of any consequence. For three years before the war Trinity had agents in the field; these agents procured money enough to pay their own expenses, and bonds to the amount of $14,000.—These bonds are still held, and the Trustees have ordered collections to be made in all practicable cases.

The Faculty consists of a President and four Professors, men of qualification and reputation sufficient for any first class Institution. The Professors have been paid without any endowment from the earnings of the College.

The two Literary Societies have each a fine hall elegantly furnished, and each has a library of some four thousand volumes. The Theological Society library has about six hundred volumes, and the College library has one thousand. The Museum is not large but has many rare specimens of minerals, fossils, &c. The Chemical and Philosophical Apparatus is good, but not as extensive as is necessary. The present patronage is two hundred students, with the promise of a large increase.

At the late annual meeting of the Board of Trustees, resolutions were passed and steps taken to make improvements in the buildings, apparatus, boarding arrangements, &c. The Alumni Association has resolved to build a large and elegant Chapel, to cost $10,000. Several have already given $100 each, and all former students are invited to take an active interest, and to address Dr. Craven on that subject. In addition to this, the Trustees have resolved to add extensively to the present buildings, embracing two commodious halls for the Societies, Lecture and work rooms for the Professor of Natural Science, and various other rooms for different purposes. The intention is to have the Chapel sufficiently advanced to have the next commencement in it, and it is hoped that the other buildings may be commenced this fall. Various gentlemen have voluntarily proposed to contribute to these extensions, and it is hoped that the public will give liberally.—It is not the intention to spend any thing upon agencies. Compared with similar enterprises, this may seem rather a quiet way of proceeding, but those best acquainted with Trinity have little doubt of success.

Be on Your Guard.

The unexampled success which for twenty years has accompanied the use of Hostetter's Stomach Bitters provokes the envy of ignorant nostrum mongers in all parts of the country, and the counterfeiting business having been successfully played out in consequence of the numerous suits instituted against the offenders, a new system of tactics has been adopted. In the South and West especially, a legion of "Bitters," prepared from worthless materials and bearing a variety of names, have been got up by irresponsible adventurers with the hope of substituting them to some extent for the standard Tonic of the Age. In some cases country druggists are the concoctors and proprietors of these unscientific and trashy compounds, which are warmly recommended by the venders, who endeavor to palm them off upon the credulous in lieu of the great specific which has never yet had a successful competitor either among proprietory preparations or the medicines prescribed in private practice. This notice is intended to put the public on their guard against persuasions of parties engaged in the attempt to substitute mere rubbish for the most efficient stomachic and alterative at present known. At this season of the year when debility and complaints arising from a lack of vital energy so generally prevail, it is of the greatest consequence that no tricks should be played with depressed and enfeebled systems. Ask, therefore, for Hostetter's Stomach Bitters, the great vegetable invigorant and alterative, and reject, with deserved contempt, the worse than useless medleys offered in its place. It is as important to the public as to the proprietors of the famous restorative, that this advice should be heeded.

Thursday Night Dispatches.

WASHINGTON.

Washington, July 21.—Revenue to-day $535,600.

The Internal Revenue Commissioner decides Weiss beer is a fermented liquor.

Official dispatches received here state that the French Government refuse to exempt North German steamers from seizure, except those at sea ignorant of the war which may enter French ports.

The President will return at stated times, but will have a special office at one of the Long Branch hotels, where he will transact executive business.

The Agricultural Report for the month says the increase in the acreage of cotton, as is indicated by the returns of country correspondents, will average twelve per cent., and the aggregate will be nearly a million acres. It is almost literally true that the people are devoting all their energies to the cultivation of cotton. The condition of the crops is so far favorable for a good yield—fully an average in Georgia, Alabama, Louisiana and Arkansas—slightly below an average in the Carolinas, Florida, Mississippi, Texas and Tennessee. North Carolina had a surplus of rain in June which, in places, has occasioned injury especially in the counties of Martin, Carteret, Edgecombe, Hertford, Beaufort, Greene, Rowan and Mecklenburg. The plant is late and small in parts of South Carolina, but is growing rapidly in the recent favorable weather. A defective seed or drought in planting time has the bad stand attributed to it in many places and the growth has been retarded by excessive rains. Heavy rains in Georgia have done some damage. In Clayton and Spaulding counties, fields have been badly infested with lice, which have caused failure in some instances.

To the influence of commercial fertilizers is attributed the promising appearance of the plant in the fields. In Alabama the crop is generally flourishing, though the cereal reports are quite variable. Complaints of injury from heat or rain storms are reported in Dallas, Macon and Autauga, and from lice in Sumter and Randolph. While the crop is reported backward in some counties it is two weeks in advance of last season in Connecticut. In Mississippi heavy rains and cool nights have proved unfavorable in the counties of Neshoba, Washington, De Soto, Salabausha and Lafayette. Heavy rains more favorable for the growth of grass than cotton, and the obstruction of clean culture, has been injurious in Arkansas. In the Red River region of Texas cotton is generally flourishing, with some injury from lice. Neither the caterpillar nor the boll-worm has appeared, and there are few drawbacks which after a few weeks of favorable weather cannot repair. With an average season the present acreage should give nearly three and a half millions of bales; with one of the extraordinary length of this has the product would be little short of four million bales.

The fact that Austria orders extended field manœuvres in Hungary is accepted as proving the sincerity of her neutrality.

The war news is unimportant.

News from Paris up to noon report no fighting. The *Times* eloquently deplores the death of Paradol.

Paris, July 21.—One journal in this city to-day accepts the disagreement between France and Prussia, as God's intervention to check Protestantism.

Berlin, July 21.—The estimated decline in the number of German emigrants to America this year will reach half two hundred thousand on account of the war.

Friday Evening Dispatches.

VIRGINIA.

Richmond, July 21—Yesterday the father of Jeter Phillips bid him farewell, when for the first time Phillips broke down and wept bitterly. Last night Rev. Mr. Woodward, of the Methodist Church staid with him until 10 o'clock. The jail guard then went in about 1 o'clock in the morning. Phillips slept an hour or two soundly and got up bathed and remained awake reading the Bible till day light.

This morning he sent his love to the Chaplain of his old regiment. About ten rise a number of clergymen visited him.

Phillips has made a confession that he took his wife out on Sunday the 17th of February, walked her four miles from the city, and then walked her about in the woods until she was so tired that she had to sit down. He then fired on her, but failed to kill her. She commenced screaming for help and struggling, which he ended by leaping on her and strangling her.—He then returned to Richmond and staid that night at a hotel.

Austria is not arming.

The belligerents begin with about a quarter of a million of men. But say European journals, the French have been mere soldiers by recent service in Africa, while the Prussians are mere militia. France puts an army in the field, Prussia only an armed people.

SOMETHING WORTHY OF NOTICE.

NEW DRUG STORE.

I WOULD RESPECTFULLY CALL THE ATTENTION OF THE CITIZENS OF RALEIGH AND VICINITY TO MY

New Drug Store

Just opened at the old Stand of the State National Bank.

Where can be found an entire new stock of select Drugs Medicines Chemicals; Patent Medicines, Toilet articles and Perfumery and all articles usually kept in a first class Drug House.

My aim shall ever be to give satisfaction to my patrons. Nineteen years experience in the business enables me to say that my stock is as well selected as any in the State.

I would especially call the attention of the Physicians of the surrounding country to my stock and know that I can offer them inducements to give me a trial. No old goods—every article warranted fresh and genuine.

The prescription department will be under my immediate supervision and all prescriptions will be prepared with neatness, accuracy and dispatch.

N. B.—Prescription compounded at all hours of the night by a competent and reliable clerk.

CHARLOTTE N. C.

THE EQUITABLE

HAS BECOME THE LEADING COMPANY OF THE WORLD.

Its New Business (sum assured), for the year 1869, exceeded that of the second company in rank by more than Thirteen Million Dollars.

In 1860 it was the 9th Company in new business for the year; in 1861 it was the 8th; in 1862 and 1863, the 7th; in 1864 and 1865 the 6th; in 1866, the 4th; in 1867, the 3d; in 1868, the 2nd;

In 1869 it was the FIRST.

The insuring public should not allow itself to be deceived with regard to the term "Annual Dividends." Many companies using this expression mean that their dividends are "annual" after they once begin to pay them at all; but they do not begin to pay until the settlement of the third, fourth, or fifth premium.

One hundred Dollars paid in dividends at the end of *one year*, and each year thereafter, equals four hundred and thirty six dollars paid at the end of four years, interest at six per cent.

Applications for Assurance may be made to any of the Society Agents throughout the country, or in person or by letter to the General Agents.

Gentlemen of character desirous of forming a connection with the Society as Agents are invited to communicate with the General Agents.

A New Discovery!!
Phalon's
"VITALIA;"
or,
Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color

Phalon's "Vitalia" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

Phalon's Vitalia is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

The Vitalia is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications, according to the depth of shade required. Sold by all druggists.

A PROCLAMATION

By His Excellency the Governor of North Carolina.

Executive Department of N. C.,
RALEIGH, June 6th, 1870.

WHEREAS, Official information has been received at this Department, that a vacancy exists in the representation from this State in the Congress of the United States, caused by the resignation of Hon. JOHN T. DAVENPORT, a member of the House of Representatives from the 4th Congressional District, composed of the counties of Wake, Franklin, Granville, Orange, Johnston, Nash, Chatham and Warren,

Now therefore, I, W. W. HOLDEN, Governor of the State of North Carolina, by virtue of authority vested in me by law, do issue this Proclamation, ordering an election to be held in the various counties composing said District, on the first Thursday in August next, for the purpose of filling the unexpired term of the said JOHN T. DAVENPORT. It is further ordered, that said election be held in all respects in accordance with existing laws.

Done at our City of Raleigh, this 6th day [L. S.] of June, 1870, and in the 94th year of our Independence.

W. W. HOLDEN, Governor.

READ AND PONDER.

I never read a dozen pages of medicine in all my life, and of course know nothing about it. But, as I said before, Dr. Hammond is my authority for saying, that any man who smokes such good Cigars, or chews such good Tobacco, as you can find only at FINCH & HARDIE'S, need have no fear of dimming wealth. But will, on the contrary, improve in health and increase in flesh so long as he continues to use them.

Indeed the authority of such distinguished Physicians as Dr. Hammond is not needed to convince you that I only assert what can be substantiated, by contrasting our esteemed fellow citizens, Jos. C. Palmer and Jas. M. Towles, who never smoke, with such men as my friends Creech on the corner, Maj. Tucker just opposite, Harvey Moore, of the SENTINEL and Simon Hayes, the Livery Stable man, and a host of others I could name, who use my Cigars and Tobacco.

Suffer a word of exhortation; come and see me. Try my goods, and if I don't suit you go further and fare worse.

UNPRECEDENTED SUCCESS

Medal Awarded by the Paris Exposition, 1867.

THE AMERICAN COMBINATION Button Hole & Sewing Machine

Has been honored with the *highest* award in premiums and diplomas wherever entered for competition at *fairs* and *exhibitions* held during the past season.

THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates as well as the uniform excellence of its work throughout the entire range of Sewing, in

Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work,

Place it unquestionably far in advance of any other similar invention.

It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) using either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparatively noiseless, easily understood, and in a word, it combines with these ADVANTAGES, EXCLUSIVELY ITS OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.

The public are invited to examine this remarkable machine at Mrs. Tompkins' Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.

Instructions in the use of the machine will be given to all purchasers *gratis*.

NON-EXPLOSIVE COMBINATION BURNING FLUID

THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN THE WORLD!!

No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more Fires!!

EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!

IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimneys.

Guaranteed to make a better and safer light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 21 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivaled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe and brilliant* illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

A. BALDING'S

PATENT GLASS SUBMERGED

DOUBLE-ACTING FORCE PUMP.

SUBSTITUTE FOR A FIRE ENGINE.

THIS Pump will pump 30 gallons of water per minute, will never cut out the packing, has no friction, no water ever stands in its pipes to freeze, and is less liable to get out of order than any other pump now used. It can be set up in a short time by any ordinary mechanic.

The No. 3 pump for yard wells will be sold at from $20 to $25, capable of throwing 30 gallons of water per minute. The price of No. 2 for railroad stations, throwing 61 gallons per minute, will be given upon application.

Having the exclusive right to this pump for the states of North and South Carolina, and having established a factory for the manufacture of them at Wilson, N. C., I will receive orders for them at Wilson, and will ship them by Express C. O. D., or, if the money is sent me, by the regular freight. The number of feet in the depth of the well must be given in all cases.

MR. J. L. KITCHIN:

DEAR SIR.—We certify that the "Balding Pumps" put up by you in the town of Scotland Neck are a perfect success. They pump very rapidly, and by attaching hose, will throw water from 40 to 60 feet and would prove invaluable in case of fire.

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!

THE BROOKLYN LIFE, IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES

DEFINITE CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks*,—upon which elements of administration the security of a Life Insurance Corporation depends.

The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and *every year, and a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities.*

Insurers, in looking around for Companies in which to insure, should carefully seek for this important SAFEGUARD. It will be found in the BROOKLYN LIFE.

Gen'l. S. B. BUCKNER, Manager Southern Dep't.

The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeiting feature in all its policies. Its President, Mr. Pliny Freeman, was the inventor of the ten-year, non-forfeiture plan, and introduced it in the Company with which he was then connected.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."
